## DANIA · CONFIGURATIONS

---

---

### ABOUT DANIA

---

Dania are fully configurable chairs and tables. In the chairs, the curved design creates a wave between back and seat. Their finish ranges from oak or walnut, upholstered or milled panel. The tables are composed of natural wood with a curved edge.

Dania's design represents the soul and character of the tides: a serene appearance that hides the strength inside. It's the ideal solution for warm and welcoming environments. Dania shows an honest design that exudes calmness.

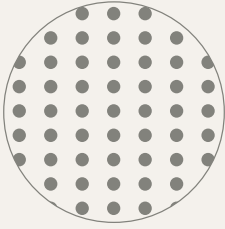

### SOBRE DANIA

Dania son sillas y mesas totalmente configurables. En las sillas el diseño curvo crea una onda entre respaldo y asiento. Su acabado navega entre la madera natural de roble o nogal, tapizado o panel fresado. Las mesas se componen de madera natural con borde curvo.

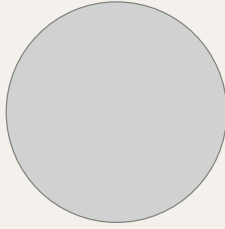

El diseño de Dania representa el alma y el carácter de las mareas: apariencia serena que esconde la fuerza en su interior. Por ello es la solución ideal para entornos cálidos y acogedores. Dania muestra un diseño honesto que transmite calma.
