
JULIA • CONFIGURATIONS

ABOUT JULIA

La Colección Julia es un sistema de mobiliario totalmente configurable. Las estructuras de acero proporcionan la dimensión vertical, escogiendo entre las diferentes opciones de escalonamiento. Mientras, las baldas de madera otorgan la dimensión horizontal al conjunto. El toque exquisito lo aportan los paneles correderos, tapizados a ambas caras con posibilidades infinitas de color.

Se trata de un sistema autoportante que permite configurar mobiliario exento y visto a dos caras, perfecto como divisor de ambientes o distribuidor de espacios.

SOBRE JULIA

Julia collection is a furnishing system completely configurable. The steel structures provide the vertical dimension, choosing between the different height options. Whereas the wooden shelves give the horizontal dimension to the whole. The exquisite touch is provided by the sliding panels, upholstered on both sides with infinite color possibilities.

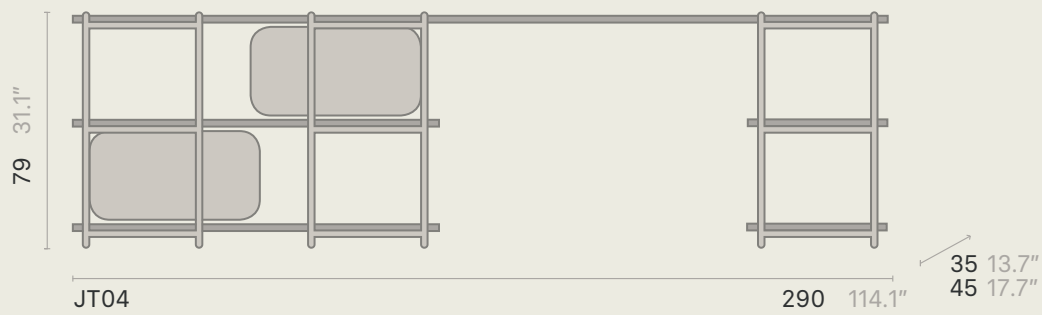

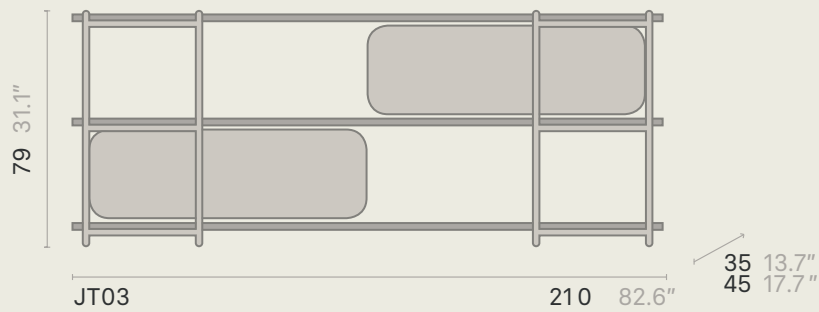

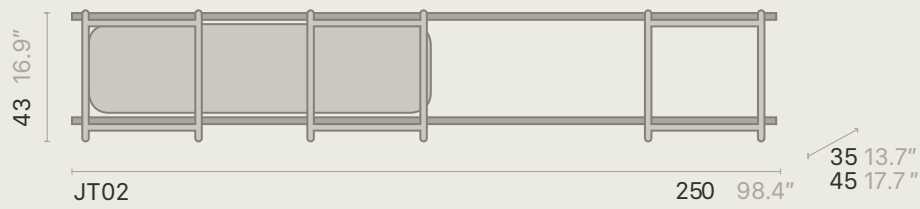

It is a self-supporting system that allows the user to configure freestanding and double-faced furniture, perfect as a room divider or space distributor.
